Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The Final Rejection of 5/12/05 is withdrawn. Prosecution on the merits of this application is reopened on all claims and are considered unpatentable for the reasons indicated below: The Oath/Declaration is not proper.

2. It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56. Note "material to examination" is not the same as "material to patentability".

Furthermore, applicant is requested to submit an Information Disclosure Statement (IDS) form 1449 of all relevant references, including those cited in the parent application, now US patent no. 5,771,657.

3. The reissue oath/declaration filed with this application is defective because it fails to contain the statement required under 37 CFR 1.175(a)(1) as to applicant's belief that the original patent is wholly or partly inoperative or invalid. See 37 CFR 1.175(a)(1) and see MPEP § 1414.

A claim cannot claim "more or less" at the same time (i.e. applicant needs to state that they either claimed more **or** less and not state both. See also MPEP 1414 which states:

A statement that the original patent is "wholly or partly inoperative or invalid" (emphasis added) by reason of the patentee "claiming more or less than the patentee had the right to claim in the patent" (emphasis added) is improper since a claim cannot claim "more or less" at the same time.

Art Unit: 3721

4. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Though the error statement refers to terms or phrases in general which have been omitted, there is no reference in any instance to any specific claim or any indication of what the new or amended claims (with specific reference to at least one claim number) have that the original claims lacked. See also MPEP 1414, which states:

(C) It is not sufficient for an oath /declaration to merely state "this application is being filed to correct errors in the patent which may be noted from the changes made in the disclosure." Rather, the oath /declaration must specifically identify an error. In addition, it is not sufficient to merely reproduce the claims with brackets and underlining and state that such will identify the error. See *In re Constant*, 827 F.2d 728, 729, 3 USPQ2d 1479 (Fed. Cir.), cert. denied, 484 U.S. 894 (1987). **Any error in the claims must be identified by reference to the specific claim(s) and the specific claim language wherein lies the error.** A statement of " ... failure to include a claim directed to ..." and then presenting a newly added claim, would not be considered a sufficient "error" statement **since applicant has not pointed out what the other claims lacked that the newly added claim has, or vice versa.** Such a statement would be no better than saying in the reissue oath or declaration that "this application is being filed to correct errors in the patent which may be noted from the change made by adding new claim 10." In both cases, the error has not been identified.

5. Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 5,771,657 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

Art Unit: 3721

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

6. Claims 1-4, 6-16, 18-31, 33-44, 46-59, 61-76, 78-90, 114-115, 118-123, 148-149, 153-162, 164-165 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Further note that applicant's attempt to cure these deficiencies, submitted via facsimile on 2/1/07 (not of record) were not adequate; see above.

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher R. Harmon whose telephone number is (571) 272-4461. The examiner can normally be reached on Monday-Friday from 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rinaldi Rada can be reached on (571) 272-4467. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
